There Will Be No War With
Chili.

HER REPLY IS SATISFACTORY.

Secretary Blaine Furnishes This Information Through Representative Blount, Chairman of the House Committee on Foreign Affairs—Chili's Reply to Be Sent to Congress.

WASHINGTON, Jan. 28.—Representative Blount, chairman of the house committee on foreign affairs, had an interview yesterday with Secretary Blaine at which the full text of the reply of Chili to the ultimatum of the United States of the 21st inst. was read. Upon Mr. Blount's return to the Capitol, he spoke of the interview in a manner that indicated that he was of the opinion that the controversy with Chili would be settled without recourse to hostilities. This expression, in its repetition from mouth to mouth, grew into a definite statement that Secretary Blaine had received a second message from Chili through Senator Montt, apologizing in a manner that was perfectly satisfactory to the United States; that there would be no trouble.

No second dispatch has been received from Chili; the reply which was received Tuesday is the only communication from Santiago on the subject. The report that the second message came through the Chilean legation here, probably arose from the fact that Senator Montt had been advised by his government that a reply to the demands of the United States had been sent to Washington and giving its terms.

Mr. Blaine told Mr. Blount that the cablegram from Minister Eggn was entirely satisfactory to the United States, and he had no objection to Mr. Blount making public this fact and his knowledge of what the dispatch contained.

"The bottom is out of it," said Mr. Blount. He said that he made this statement on the information furnished him by Mr. Blaine. The latter, said Mr. Blount, seemed very much elated. Mr. Blount said Mr. Blaine showed him the dispatch from Mr. Eggn. It was in manuscript and covered about six or seven foolscap pages. "It seemed," said Mr. Blount, "a satisfactory response to the president's ultimatum and in a nutshell it meant we unqualifiedly meet your demands."

Speaking of its contents, Mr. Blount said: "It stated that there was the greatest feeling of regret on the part of the Chilean government and people over the Baltimore tragedy. It contained an explanation of the charges that the Chileans generally were hostile to the United States, stating that there was no such feeling toward the American government or its subjects in Chili."

In connection with this point, said Mr. Blount, the dispatch from Mr. Eggn reads something like this: "Chili hate Americans? No. Too well does Chili remember how the presence of American uniforms in her harbors aided her in achieving her struggle for independence."

There was an utter disavowal, said Mr. Blount, of any hostility toward the American nation or any of its citizens. According to Mr. Blount, the substance of the dispatch is as follows: A satisfactory explanation and retraction concerning the offensive note issued by Senator Matta, the late Chilean minister of foreign affairs, is made.

Mr. Blaine told Mr. Blount that Chili's offer in this connection was acceptable to the government. Chili further agrees, said Mr. Blount, to meet the demands of the United States contained in the president's ultimatum unqualifiedly, and expresses the greatest feeling of regret over the whole affair.

As to the Baltimore affair, said Mr. Blount, expressions of regret concerning it wholly satisfactory to Mr. Blaine are made; and in conclusion the Chilean government states that in complete compliance with our demands it begs the submission of the whole controversy to that august tribunal, the United States supreme court.

The answer to the ultimatum also declares a sincere feeling of friendship for the United States and a profound feeling of friendship for our flag and the uniform of our sailors."

Mr. Blount says the reply settles the whole matter. "The bottom has dropped out of the controversy," he said, "and this is a peaceable solution of the whole difficulty."

Representative Blount said he felt that a great load had been lifted off the shoulders of the committee on foreign affairs of the house, of which he is chairman, by this sudden and favorable turn in the situation. There had been, he said, conflicting reports in circulation about the character of the Chilean response and it was very gratifying to him to find it so complete an apology and apparently so satisfactory to Secretary Blaine. It appeared to Mr. Blount to be ample and so satisfactory that it must be acceptable to the administration, to congress and to the country.

Mr. Blount made this observation last night after he had called on President Harrison late in the afternoon to talk about the Chilean situation; and, while he was, of course, reticent about what the president had said to him, or whether the president took an optimistic or pessimistic view of the situation, he significantly observed that he expected the president would, in a day or two, send the Chilean response to congress, and that the Chilean trouble would very soon be on the road to an honorable and peaceful settlement.

Last night it was learned that President Harrison would send the "additional" correspondence—the Chilean response to the ultimatum of the 21st inst.—to congress this afternoon.

CLAIMS FOR INDEMNITY.

Riggin's Brother Consulting an Attorney
on the Subject.

PHILADELPHIA, Jan. 28.—John L. Riggin, brother of Charles W. Riggin, the boatswain's mate of the cruiser Baltimore, whose brutal murder by the Cuillians in the streets of Valparaiso, was called to the attention of congress in President Harrison's message, consulted Attorney W. W. Kerr yesterday with regard to the indemnity that will be exacted from Chili for the taking of his relative's life. The result of the interview will be the early filing with the secretary of state of claims for damages on behalf of the brother and the two sisters of the deceased—Mrs. Mary Zimmerman and Mrs. Ella Matthew, both of this country.

When Captain Kerr, who was assistant attorney general of the United States under President Arthur's administration, and who is familiar with all the details involved in the legal procedure of such matters, was asked as to the course he would pursue, he said: "I suppose that in this instance the matter will be arranged as in all such cases, Chili will be compelled to pay a certain sum of money for the indemnification of the survivor. These are special cases of damage, and there is no law governing them. The actual injury sustained is not the gado, but damages are awarded with a view of punishment upon the aggressor, or to serve as a warning to others. In this way the parties in interest receive not only their ordinary loss, but get what the law calls vindictive or exemplary damages."

Counselor Kerr has not made up his mind yet as to the exact amount to press for. After further consultation with his clients he will at once notify the state and naval departments of the the claims that will be presented.

Have No Use for the Men Now.

BOSTON, Jan. 28.—Captain Surgeon, of the Ohio, has been placed on waiting orders, and sixty men and the officers of that vessel, which had been fitting out at Charlestown navy yard in view of a possible war with Chili, have been discharged. The vessel will soon be placed in commission as a machine ship.

Taking Advantage of the Situation.

NEW YORK, Jan. 28.—There was a rumor on the Stock exchange yesterday that Minister Eggn had been shot, and the market sold off on that account. It proved only a speculation scheme.

CHURCH BURNED.

Firemen Hard Fight with Flames and
Intense Cold.

ALBANY, Jan. 28.—Fire was discovered at 4:15 o'clock yesterday morning in the French Church of the Assumption, on Hamilton street, and in ten minutes the entire structure, which was a frame one, was wrapped in flames. The priest in charge, Father Lavigne, rushed in to save the sacrament, but he had to turn and flee for his life.

In half an hour nothing but bare, blackened posts remained. The flames spread to the pastor's house, and to the four-story brick and two-story frame house on the east. The entire fire department was called out, and for at least five hours there was a hard fight for supremacy, the firemen gradually getting the better of the fire.

The pastor's house was thoroughly wrecked, and the frame dwellings, occupied by nine colored families, were entirely destroyed. The entire loss is about \$10,000. The church was valued at \$10,000, and was insured for \$6,000. The thermometer registered 4 degrees below zero, and a high wind was blowing.

The firemen suffered intensely with the cold, some of them being literally encased with ice an inch thick and which had to be broken by their comrades so that they could walk.

MINIONS OF Church Property Involved.

CHICAGO, Jan. 28.—In the great Evangelical church fight Judge Shepard, in the circuit court, yesterday, rendered a decision in favor of the Escher and Bowman faction, as against the Duls faction, holding that the Indianapolis conference, presided over by the former, was a lawful one and that they committed no acts that tended toward taking away their rights. The decision involves church property valued at \$1,000,000.

Two Chinese Steamers Lost.

VANCOUVER, B. C., Jan. 28.—Advices from Yokohama state that two fine steamers have been lost near Swatow. The Tyuan-tan ran ashore, and signals of distress brought the Tongshan to her assistance, when the latter went aground and both were lost. The German steamer Marie has been wrecked near Chafon, and several of the crew were drowned.

Found Dead in His Room.

BOSTON, Jan. 28.—Colonel Lyman P. French, aged fifty-two, a well known lawyer of Boston, a member of the Loyal Legion and during the war a judge advocate, was found dead in his room at the Hotel Brunswick yesterday afternoon. He had been very despondent of late, owing to illness and the recent death of his wife. The indications point to suicide.

Judge Woods' Answer.

WASHINGTON, Jan. 28.—The answer of Judge Woods, of Indiana, to the charges filed against him before the senate judiciary committee by Senator Voorhees, who is opposing his confirmation as additional judge of the Fifth Indiana judicial district, has been laid before the committee. The examination of witnesses, etc., will begin Friday.

Three Engines Wrecked.

OMAHA, Jan. 28.—Three Burlington and Missouri engines were wrecked at the Union depot by a collision yesterday. It was caused by a misplaced switch. Fireman Dolan and Engineer Dryfus received broken arms, and the passengers on the train which crashed into one of the engines were badly shaken up, but none seriously hurt.

HOUSE AND SENATE.

Proceedings of Both Branches
of Congress.

MR. BLAIR'S CASE IN THE SENATE.

The State Department called on for the Correspondence Between China and the United States Relating to the Rejection of Mr. Blair as Minister to China by That Government—The House Considering the New Notes.

WASHINGTON, Jan. 28.—In the senate yesterday Mr. Gibson, from the committee on naval affairs, reported a bill for a dry dock at Algiers, La., at a cost of \$50,000.

Mr. Hale, from the same committee, reported favorably a resolution asking the president for information as to steps taken for soundings between San Francisco and Honolulu and other points in the Pacific, according to the provisions of the last naval bill.

Mr. Morgan asked immediate consideration of a resolution calling for the state department correspondence with China regarding Mr. Blair. It was important to learn what the United States intended to do when notified that a gentleman of such high reputation had been rejected by the government to which he was accredited. This became additionally important from its bearing on any case where the United States and another government had become embroiled. After some discussion the resolution was adopted.

Mr. Hoar, from the committee on elections, called up the resolution declaring Horace Clilton entitled to the seat in the senate made vacant by the resignation of James Reagan. He explained that the committee had concluded that the governor's appointment of Mr. Clilton was legal. After some debate the resolution was adopted and Mr. Clilton was confirmed in his seat.

Mr. Cannon introduced a bill to which he desired to call the special attention of the committee on judiciary to amend Section 860 of the revised statutes, which had been on the statute books since 1868, in regard to the obligations of witnesses to testify.

The consideration of public buildings on the calendar was resumed. The first bill taken up was an appropriation of \$100,000 for a public building at Reno, N. M., reduced to \$75,000. Some discussion followed until the hour of 2 o'clock arrived and Mr. Morgan resumed his remarks on the La Brabra claim. Mr. Morgan still held the floor when the senate, at 4:15, went into executive session.

At 4:45 the senate adjourned.

In the House.

There was a small attendance of members when the house met. A bill providing for a railroad and wagon bridge across the Mississippi at South St. Paul was passed. Mr. Hatch, of Missouri, introduced a bill providing that oleo-margarine transported into any state or territory shall be subject to the laws of such state or territory the same as if manufactured therein. He moved its reference to the committee on agriculture. The speaker ruled that it should go to the judiciary committee. By a vote of 128 to 103 it was referred to the committee on agriculture.

Mr. Martin, of Indiana, offered a resolution, which was referred to the committee on foreign affairs, calling upon the president for all correspondence between this government and Chili upon matters concerning the government of Chili by the so-called Bahnuada regime, and since its overthrow, and upon all subjects connected with the recent civil war.

The consideration of the rules was then resumed, and at 3:35 the house adjourned.

Boy Burned in a Bakery Blaze.

PITTSBURG, Jan. 28.—Tuesday night a fire destroyed several dilapidated dwellings on East Ohio street, Allegheny. One of the buildings destroyed was a baker's shop, in which Jose Babitz, a Bohemian, fifteen, was employed as a helper. It was thought that all had escaped from the building. Yesterday morning, however, the body of young Babitz was found frozen to the cellar floor. It is supposed that after completing his work Babitz had gone to sleep in the cellar, and was smothered to death. The buildings were occupied by Hungarian families.

Quick Mail from New York to Chicago.

NEW YORK, Jan. 28.—The Commercial Advertiser says that its efforts to secure quick transportation of mails between New York and Chicago are on the point of success. Vice President Webb, of the New York Central and Hudson River Railroad company, has stated that that company can start a train with mail from New York at 4:30 p.m. and land in Chicago in time for delivery at 10 o'clock the next morning, either over the Lake Shore or Michigan Central.

Fought Fourteen Rounds.

NEW ORLEANS, Jan. 28.—Three thousand spectators assembled at the Olympic club last night to witness the match between Cal McCarthy and Tommy Callaghan, for a purse of \$3,000, of which \$300 goes to the loser. The odds before the fight were slightly in favor of McCarthy, though Callaghan had many friends. The fight was short and decisive, McCarthy knocking his opponent out in the fourteenth round. George Dixon has agreed to meet McCarthy.

Died of Earache.

CRAWFORDSVILLE, Ind., Jan. 28.—Lon Brooks, a well known circus tumbler and rope-walker, died at his home here yesterday of earache. Two doctors were summoned at midnight, but upon being told the nature of the ailment each deferred coming until daylight. Brooks finally went into convulsions, and he died at 8 o'clock.

THAT IS LOVE.

Though Maimed, Blind and Dying, His Sweetheart Weds Her Lover.

ENGLISH, Ind., Jan. 28.—Quite a romantic affair took place at Maimo, Tuesday, in the marriage of Miss Spencer to Strand Van Meter, the young man who, a few weeks ago, was blown up by dynamite in the stone quarry at that place. It will be remembered that one of Van Meter's eyes was completely torn from its socket, while the other one was injured beyond recovery.

In addition to this, his arms and legs were broken. One arm had to be cut off at the wrist and the other near the elbow.

Tuesday he was raised in bed and piloted up to play his important part in the ceremony which united him during life to the woman whose pledges of love he long since received, and whose action on this remarkable occasion proves her to love as only woman can.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSE & McCARTHY,
Proprietors.

THURSDAY, JANUARY 28, 1892.

It is now announced that there will be no war with Chile. No one really ever thought there would be.

The President's war message is a pretty good campaign document. He cast several anchors to windward when he wrote it.

New York Democrats are in a big hurry to select their delegates to the National convention. February 22 is the date. And all this it is claimed is a part of the scheme of Hill and his followers. They want to lead off with the Empire State.

This separate coach idea is all a piece of nonsense, and the Legislature ought to sit down on it. Texas has tried it, and is tired of it. What is needed more is a law making all train employees officers of the law and compelling them to eject from passenger coaches all roughs, toughs and drunken desperadoes, black and white, unless they behave themselves properly.

MINISTER PATRICK EGAN'S son is the agent in Chili, on the recommendation of the Minister, of the American Construction Company, which has an assumed claim of \$7,500,000 against the Ohilian Government. A compromise was about to be effected with the Balmaceda administration, but the present Government of that country has not recognized the claim, says an exchange. And therein is the key to all the trouble with Chili.

PRIMARY ELECTIONS.

If Mr. Carroll's Bill Becomes a Law They Will be Conducted Fairly Hereafter.

One of the most important measures now pending in the Legislature is a bill to govern primary elections. It was introduced by Mr. Carroll, of Louisville, and if it becomes a law such elections will be conducted fairly and squarely hereafter.

It provides that all primary elections shall be by secret ballot, and conducted in the same manner as general elections. The primary is to be called by the governing committee of the party holding it at least forty days before the time fixed for the election, and the same call shall define the qualifications of voters and specify the offices for which candidates are to be named. It shall also name a time for the registration of voters entitled to vote in the primary and this registration is to be made in the same way as registration for general elections, at least twenty days before the date of the primary. Provision is made for special registration of those who show by affidavit that they were sick or unavoidably absent from the place of registration at the time of the original registration.

At least ten days before the elections, all persons desiring to be candidates at the primary must submit their names to the committee and they will then be declared and published as candidates for the nomination of the party, but a voter must vote for whomever he pleases by writing the name of his choice on the ballot provided by the committee. The committee will count the votes and certify the nomination of the successful candidates.

The bill is provided with all the penalties that apply to offenses against the general State election laws by election officers and penalties are also provided against the committee for failure to comply with the provisions of the law. The officers of the primary are to be selected by the committee from lists furnished by the various candidates and each one is to be given a fair proportion of all the officers.

Mr. Carroll submitted the bill to the Revisionary Commission before he reported it, and they approved of it.

One of Senator Poyntz's Jokes.

The Frankfort correspondent of the Louisville Post says: "Mr. Hargis, of the Committee on Federal Elections, presented a resolution that caused a laugh and was traced to the influence of Senator Poyntz. It recited that, whereas there is grave danger of a war with Chili, and as the Government, by reason of the 'billion' dollar Congress, was not prepared to meet the emergency, Congress might make a motion to withdraw its proposition to return the direct tax of \$600,000, and it asks that the Committee on Federal Relations be directed to hasten to Washington and collect the money before it is too late. It adds that an extreme and powerful emergency exists that this money should go into the State Treasury during the sitting of this Legislature."

A bill is pending in the Ohio Legislature to increase the saloon tax from \$200 to \$600 or \$1,000.

KENTUCKY SOLONS.

A Monument to Hart Proposed—Senate Lottery Resolution Passed Other Matters.

Another remonstrance against the passage of the separate-coach bill was presented to the House yesterday.

Mr. Spaulding, of Marion, offered a joint resolution reciting the debt of gratitude the State owes to Joel T. Hart, whose remains lie buried in the Capital Cemetery, and proposing to appropriate \$1,000 to erect a suitable monument over his grave.

The revenue bill proposed by the Revisionary Commission, and which covers seventy pages, was read.

The Senate bill directing the Attorney General to institute proceedings to suppress lotteries was passed by a unanimous vote.

Mr. Simms' bill to provide by general law for the construction and repair of court houses was passed.

In the Senate several bills were read the second time.

The House adopted Representative Hart's resolution calling on the County Clerk at Louisville to explain the liquor licenses delinquencies the past two years.

The Auditor's report shows that the delinquencies in two years amounted to over \$100,000 and that the Auditor's Agent at Louisville was paid about \$10,000 commission for collecting money which the County Clerk ought to have collected.

As adopted the resolution provides that the Clerk shall report what retail liquor dealers, if any, were indicted under the provisions of the license law, what was the final action of the court upon said indictment, and whether or not the County Attorney or Commonwealth's Attorney took any steps to secure indictments or convictions for the offense named.

Beuley Against Curtis.

In affirming the decision of the Mason Circuit Court in the case of Beuley versus Curtis, the Court of Appeals says:

"First—While a Deputy Clerk should act in the name of his principal, and not in his own name, a certificate to a deed made and signed by him in his own name, as 'Deputy Clerk,' without using the name of the principal either in the body of the certificate or in the subscription, is void. And although the grantor in such deed be an untried woman, she will not be allowed to repudiate the deed, it being admitted by her that the person who took and certified the acknowledgment was in fact the Deputy Clerk, and that he was acting for his principal.

"Second—When land is held in trust for a married woman, a deed by her and husband will pass her equitable right, although the trustee does not unite in the deed, and the wife can not, after she becomes discovert, recover the land."

Church News.

A meeting at Morning View, Kenton County, resulted in thirty confessions and the organization of new Christian Church.

The wealth of the Protestant Church members of the United States in 1890 amounted to \$13,000,000,000 and the wealth of the entire country was \$61,400,000.

COLONEL P. B. SPENCE, of Newport, and Mr. Gandy, a representative of the Addyston Pipe Company of Cincinnati, were here yesterday looking at the fuel gas.

Nerve Enough.

(From the Detroit Free Press.)

He walked into a Chicago newspaper office confidently and took a seat.

"Are you the manager?" he asked, briskly.

"What can I do for you?" replied the newspaper man in a non-committal tone.

"I'm a patent medicine manufacturer. Your paper has a pretty wide circulation, hasn't it?"

"Wide!" The newspaper man swung round in his chair. "Wide!" I should say so. We have a circulation greater by ten to one, than any other paper in the State—a sworn circulation, sir, of 100,000 copies daily, and it's a paid circulation, too, and we reach the families sir. Our paper is read by 500,000 people every day, and when you consider that our advertising rates are—well, they're so low that we are going to advance 'em 50 per cent, right after the 1st. I don't exaggerate in the least, sir, when I say that we offer positively the best advertising medium in the United States. Why, you can see for yourself what the results must be from an 'ad' placed before 3,500,000 people every week and—Where are you going?"

"Oh, 'round town a little," replied the stranger, putting on his hat. "The article I make is a nerve medicine, and I came in to sell you a bottle, but I see you don't need it."

For the Children.

Our readers will notice the advertisements in these columns of Chamberlain & Co., Des Moines, Iowa. From personal experience we can say that Chamberlain's Cough Remedy has broken up bad colds for our children and we are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost and are recommending it every day.—Centerville (S. D.) Chronicle and Index.

SOME SYNONYMS.

The Wonders of the English Language Illustrated.

[Boston Commercial.]

The construction of the English language must appear most formidable to a foreigner. One of them looking at a picture of a number of vessels said: "See what a flock of ships!" He was told that a flock of ships was called a fleet, and that a fleet of sheep was called a flock.

And it was added for his guidance in mastering the intricacies of our language that "a flock of girls is called a bevy, that a bevy of wolves is called a pack, and a pack of thieves is called a gang, and a gang of angels is called a host, and a host of porpoises is called a shool, and a shoal of bonfaloos is called a herd, and a herd of children is called a troop, and a troop of partridges is called a covey, and a covey of beauties is called a galaxy, and a galaxy of ruffians is called a horde, and a horde of rubbish is called a heap, and a heap of oxen is called a drove, and a drove of blackguards is called a mob, and a mob of whales is called a school, and a school of worshippers is called a congregation, and a congregation of engineers is called a corps, and a corps of robbers is called a band, and a band of locusts is called a swarm, and a swarm of people is called a crowd."

Couldn't Collect with a Club.

It is astonishing how history repeats itself. For centuries we have been trying to perfect the laws so that no trace might be left of "the good old rule, the simple plan, that he may keep who can." Still we are a long ways from the millennium, and every once in awhile some worthy citizen relapses to the feudal principle of trying to punch the head off a creditor when he fails to observe the sacred traditions of steamship day. An exasperated Market street tailor waylaid a frisky advertising agent the other evening on the steps of his boarding house and collared him.

"If you don't pay me that bill this instant I'll club the life out of you," said the victimized tradesman. The advertising agent cast an anxious look around and there wasn't a soul in sight. Every one was in the crowded dining room.

His resolve was instantly taken. "Come right into the parlor and I'll give it to you," he said, with a smile, and the man with the bludgeon released his grip on his collar and followed him until the swinging doors of the dining room flew open and the astonished tailor stood confronting the staring crowd. "Do any of you ladies and gentlemen know this man?" asked the agent. The boarders glared over their knives and forks and shook their heads. "I thought not. I found the fellow out in the corridor trying one of the doors with a skeleton key, and I guess he's the man that's been robbing the hat rack lately." The positive resistance and declarations of the creditor only made his case worse, and when the help got through dusting him with his own club the ashman would have hesitated to pick him up from the sidewalk.—San Francisco Chronicle.

A Black Cat in a Courtroom.

Toward the close of the trial of M. F. Kerr, of Crawfordsville, Ind., for forgery, an incident occurred which, while amusing, demonstrated that the average American still believes in the efficacy of "signs." During a lull in the proceedings a strange black cat, with fierce glaring eyes, appeared in the doorway causing solemn silence to fall over the assembly. It paused, looked about, and slowly swishing its tail to and fro advanced toward the space between the prisoner and the jury's box. The silence became oppressive, and the judge, lawyers, jurors and prisoner craned their necks and with open mouths gazed at the creature.

"Would the apparition approach the prisoner to be touched?" If so the man was innocent and would be freed.

After standing us if transfixed for seconds it approached the prisoner, who with a superhuman effort stretched forth his hand and touched the glossy fur.

Immediately the cat gave a joyous "meow" and disappeared. All were convinced that Kerr would go free. He was acquitted.—Cincinnati Enquirer.

Real Babes in the Woods.

The two pretty little children of David Wismer, of Quakertown, figured in the role of "Babes in the Woods" a few days ago, but were rescued before the birds had occasion to cover them up with leaves. They suddenly took it in their heads, while playing in the street, to make a pilgrimage, and set out with no further preliminaries than the prince in the fairy tales. They came at last to the road at Perkasie, several miles away, but still were unwearied, and kept on their journey over the hills. Wondering farmers gaped at them as they passed.

The little ones soon struck the woods and wandered around among the trees until dusk deepened into evening, when they composed themselves complacently for slumber beneath the overhanging branches. Meanwhile the frightened father had spread the alarm and was fast on their heels. He traced his babes to the woods, where he awoke them, and took them home with him half-frozen.—Philadelphia Record.

WONDERFUL SUCCESS.

The Young People's Society of Christian Endeavor—The District Meeting.

The Central Methodist says: "Since Christianity began there has been no organized effort for its advancement which has met with such widespread success as the Young People's Society of Christian Endeavor. Its model constitutions are now being translated into the Armenian and other languages. There are already translations in Chinese, Fiji, French, German, Norwegian, Spanish, Swedish, Tamil, Turkish, and several other tongues. So it is now possible for one-half the people on earth to read in their own language this constitution. Rev. F. E. Clark, the founder of the movement, is comparatively a young man."

The society was organized only a few years ago, and its growth has been wonderful.

District Union No. 2 of Kentucky will hold its initial meeting at the Christian Church, this city, beginning to-morrow night and closing Sunday night. The opening address will be delivered by Rev. J. Z. Tyler, of Cincinnati.

He will speak of the endeavor movement—what it is, what it has accomplished, and its outlook.

Mr. Tyler formerly had charge of one of the leading churches at Richmond, Va.

He is a fine speaker, and it will repay all to hear him and all the other speakers during the session. The programme in full is as follows:

MESSRS. LANE & WORRICK have been awarded the contract for building the addition to Messrs. Myall & Shackleford's carriage factory. Following are the subcontractors: Mr. George Clinger will do the brick work, Mr. John Moran the limestone work and Mr. M. R. Gilmore the freestone work. Messrs. W. B. Matthews & Co. have the contract for the lumber, Messrs. Bierbower & Co. the tin work and Mr. John Carnahan will do the painting.

COLONEL JOHN B. CASTLEMAN, Chairman of the Democratic State Central Committee, in speaking of the State convention to nominate delegates to the National Democratic convention, says that he will probably call the State Executive Committee together about the first of March, and that the committee would probably call the State convention to be held some time in May. When asked about the engagement of quarters for the Kentucky delegates to Chicago, Colonel Castleman said they had certainly been engaged at the Palmer House. Kentucky is entitled to twenty-six delegates to the National convention, two delegates being allowed from each Congressional district and four from the State at large to represent the two Senators.

THE MARTIN MURDER.

Rumored Arrest of Arthur Power at Some Point in the South.

The Gretna Green of Aberdeen says: "It is generally believed that Arthur Power, whom the officers suspect of being implicated in the murder of Ezekiel Martin, has been captured in the South.

"There is a possibility that the prisoner held is not the one wanted, but as photographs of Power have been sent out over the country and as parties interested in the prosecution will not deny that they have a man whom they think is Power, it is reasonable to believe, with other circumstances, that they have the man they have been looking for.

"Another evidence that something important has developed is that Mr. Ed Martin, with his son and Marshal Schlitz, left here last Sunday with Miss Crone and Mrs. Sullivan for Ripley, where their testimony was taken, and will be presented to the grand jury. Marshal Schlitz said the evidence was important.

"Marshal Schlitz received a message Monday evening from Edmund Martin to come to South Ripley on No. 3, and on arrival there he telegraphed to his wife that they would leave immediately for the South. This looks as if they had gone for Power and it is generally believed he knows something about the murder. The party is expected to return Friday.

Railway News.

The C. and O. expects to get control of the Eastern division of the Newport News and Mississippi Valley road by March 1. This division is 140 miles in length, extending from Huntington to Lexington.

It is announced at Louisville that the C. and O. will in the future use the Louisville Southern tracks instead of the L. and N. (Cincinnati Short Line) from that city to Lexington. The saving in distance by this arrangement will be some twenty miles and less time by stoppage. Passengers will be put in New York and Washington several hours sooner than heretofore.

President Ingalls, of the C. and O., has issued a circular letter to the stockholders of this company which is creating some opposition. Mr. Ingalls proposes to increase the company's mileage in the South, and to do this \$24,000,000 will be necessary. It is proposed to create a new general mortgage amounting to \$70,000,000 to cover the new issue of bonds. President Ingalls points to the fact that the gross earnings of the company have increased nearly double in the past three years. The C. and O. has certainly done well, but its stockholders are in favor of letting well enough alone.—Louisville Post.

THE DEADLY GRIP.

It is More Destructive Than the Cholera.

IT IS INCREASING IN ENGLAND.

The Death Rate in London Higher Than Ever Known Before—Effects of Influenza and Its Rapid Growth in All Europe—Address of an Eminent Physician in London—Other Foreign News.

LONDON, Jan. 28.—The deaths in London last week were at the rate of forty-six per 1,000 per year of the inhabitants, an increase of six over the rate of the preceding week. The births during the week were 2,632 and the deaths 3,761. The births were 253 below those of the week before. The deaths during the past week were 1,763 above the average of the past decade.

At Brighton the death rate was 60.9 per 1,000, the highest of any town in Great Britain.

Medical Adviser Smeel, addressing a meeting of the directors of a large life insurance company, stated that the epidemic of influenza had cost the company two and a half times as much as did the cholera epidemic of 1842.

Dr. Smeel said he considered that persons up to forty years of age were in no danger of death from attacks of influenza. Between forty and sixty-five years the chances of death increased from 15 to 20 per cent. After sixty-five years, unless the disease was destroyed immediately, the victims would be left without trace of constitution.

Every country of Europe had suffered, he added, from local outbreaks of cerebro spinal meningitis, followed by influenza, which destroyed 90 per cent. of those attacked. Dr. Smeel declared that he saw no reason why the disease at any time should not throw off its comparatively benign character and appear in its true malignity which would create terror throughout the world.

Desperate Peasants.

ST. PETERSBURG, Jan. 28.—The peasants in the districts of Voronesh became so angered against the medical men of that vicinity by the ravages of disease which the doctors were unsuccessful in combating, that they attacked the doctors and forced them to flee. The doctors appealed to the military for protection, and a body of troops were sent to restore order. The peasants notified the commandant that if the troops touched them they would burn the officer's house and kill his family. Matters were in statu quo at last reports.

Confessed to Three Murders.

VIENNA, Jan. 28.—In the trial of Schneider and his wife for murdering servant girls, whom they had decoyed for the purpose of murder and robbery, a doctor yesterday testified that the husband might have committed all the murders alone, the object of this statement being to exonerate Mrs. Schneider, who is accused jointly with her husband. The skull, hair and clothing of the murdered victim, Keinrath, has been fully identified and the male assassin, Schneider, has now confessed to three murders.

Troops Forced to Retreat by a Mob.

MADRID, Jan. 28.—The Bilbao strike is assuming serious dimensions. The strikers have cut the telegraph wires, and when the soldiers advanced upon them the rioters met the military with shots from revolvers and volleys of stones. The troops, being few in number, compared with the infuriated mob, did not care to provoke the latter by firing upon them, and concluded to retreat and await reinforcements. They were pursued for some distance by the strikers who are in complete control of the situation.

The Czarina Has a Relapse.

ST. PETERSBURG, Jan. 28.—The death of the Grand Duke Constantine, uncle of the czar, was a heavy shock to the czarina, who is just recovering from an attack of influenza. She was so affected by the announcement of the grand duke's death that she was again obliged to keep to her apartments.

Salute or Die.

ST. PETERSBURG, Jan. 28.—At Wilna, Russia, some firemen failed to salute an officer when they met him. The officer, enraged by their want of respect, drew a pistol and shot two non-commissioned officers, and was aiming at a third, when the latter averted the bullet by giving the required salute.

Gravity of the Famine.

MOSCOW, Jan. 28.—The people here are much more impressed with the gravity of the famine than are the people of St. Petersburg. All classes in Moscow are making great sacrifices to assist the famishing.

No Fears of Further Trouble.

PARIS, Jan. 28.—A dispatch from Tangier says that the French war ships have left that place. From this it is concluded that the Morocco affair is not likely to cause any further trouble in the near future.

Ended in Smoke.

LONDON, Jan. 28.—A dispatch from Teheran says that the mullah's prohibition of the use of tobacco by the natives has been withdrawn and the people are again allowed to smoke.

Sprague Still Critical.

LONDON, Jan. 28.—Rev. Mr. Sprague, who is suffering with an attack of gout in the head and hand, passed a quiet night. He, however, is still in a critical condition.

Vessel Long Overdue.

LONDON, Jan. 28.—The Albion, a steam trawler, with a crew of nine men, is now more than a fortnight overdue, and it is believed that she has been lost.

His First Trip Was His Last.

FOSTORIA, O., Jan. 28.—A brakeman on the Lake Erie and Western road fell between the cars here yesterday and was killed. Fifty-five cars passed over him, his body being literally ground to pieces and strewn along the track for several rods. It was his first trip.

SERIOUS FIRE LOSSES.

Half a Million Dollars Worth of Property Destroyed in Cincinnati.

CINCINNATI, Jan. 28.—The six-story stone front buildings of the West and Tice company, importers of china, glass and fancy goods, at 139 and 141 West Fourth street, burned last night. The loss on stock is estimated at \$125,000 and on the buildings \$75,000. Insurance not known.

Knot Brothers, dealers in toys and fancy goods, at 137, suffered a loss of \$75,000. The damage to the building is about \$60,000; fully insured.

The loss sustained by the Meader Furniture company, at 135, was caused by water, and will not be very great.

The entire fire department was called out and prevented the flames spreading to other costly buildings in the block.

The St. Nicholas hotel, the Commercial Gazette building and the Neave building are in close proximity to the property destroyed.

While the fire was raging another fire broke out in the Cincinnati Elevator company's building near the Cincinnati, Hamilton and Dayton depot, and destroyed the western portion of the building. Part of the Cincinnati, Hamilton and Dayton freight sheds were also destroyed. The loss will reach \$60,000 partly insured.

CYRUS W. FIELD WANTS TO DIE.

Loss of Children and Fortune More Than He Can Bear.

NEW YORK, Jan. 28.—Cyrus W. Field is praying to die. No one who has known him believed that he would ever yield to any thing that assailed him until breath ceased. But it is otherwise.

The strong self-made man, whose energy built the great Atlantic cable, and who up to a few months ago was enjoying a happy and honored old age, has been made a wreck by the crookedness of his son, the loss of his fortune and the death of his children.

"Oh, it's no use, no use," he faintly says. "It's all nothing now. Oh, that it should all come to this. I want to die; don't do anything for me; I shall not live," he uttered with feeble voice.

The climax of Mr. Field's illness has crushed those who watch and love him, and it baffles the physicians' skill. The sick man last night was just lingering along, with no marked change.

GLASS-WORKERS' STRIKE.

EIGHT HUNDRED MEN OUT AT PITTSBURG AND OTHERS LIKELY TO FOLLOW.

PITTSBURG, Jan. 28.—The employees of the seven Pittsburg glass tableware factories, controlled by the United States Glass company, the recently formed trust, went on a strike yesterday. About 800 men are idle. The present indications are that the strike will extend over all the factories of the United States company, there being nine other factories outside of Pittsburg.

The cause of the strike is a new set of rules. The new rules demand in substance that the men work four and a half hours on a task, whether they can finish it in less time or not, in order that better ware may be produced. A committee was appointed, and it is probable a conference will be arranged in order to settle the strike.

BOOMING PORTER FOR GOVERNOR.

JEFFERSONVILLE, Ind., Jan. 28.—A large number of southern Indiana Republicans have decided to boom Hon. Albert G. Porter for the nomination for governor. A few days ago as he passed through this city en route to the south several Republicans had a talk with him on the train, and in his conversation it is said he mildly intimated that he was in the hands of his friends for the nomination, and were it given to him he could not injure his party's decline. Mr. Porter is also understood to have said he would not return to Italy as United States minister, and that his resignation would soon be forthcoming. The announcement of Mr. Porter's name in this section has tended to weaken Governor Chase's strength for nomination.

THE Czarina HAS A RELAPSE.

ST. PETERSBURG, Jan. 28.—The death of the Grand Duke Constantine, uncle of the czar, was a heavy shock to the czarina, who is just recovering from an attack of influenza. She was so affected by the announcement of the grand duke's death that she was again obliged to keep to her apartments.

NO FEARS OF FURTHER TROUBLE.

PARIS, Jan. 28.—A dispatch from Tangier says that the French war ships have left that place. From this it is concluded that the Morocco affair is not likely to cause any further trouble in the near future.
